

How do I ensure successful transfers from Register.com?

Author:
Webservio Inc.

Created On: 19 Sep 2012 11:52 AM

If you are transferring from Register.com, Inc., here are some tips to help ensure your transfer is successful.

- 1) After you approve Webservio's confirmation email, you will also receive a confirmation message from Register.com.
- 2) Register.com will send their confirmation email to 'AdminContactVariable.'
- 3) You will have 72 hours to approve the email that Register.com sends you.
- 4) For .biz, .info or .org domains, you must contact Register.com to obtain your Authcode for the domain (needed for transfer). http://www.register.com/contact_us_bridge.cgi?cmp=IL9691
