---

- » Login to the Postini portal as a system administrator
- » Click "Orgs and Users" tab
- » Click on the sub-org that contains your users (ie Customer domainname.com)
- » Scroll down to "Organization Settings"
- » Click "System Tests"
- » Select SMTP Message Tests
- » Enter a valid email address for your domain in the email address field
- » Select which delivery testing option you desire
- » Click Test
