

VIPRE Email Security (aka FuseMail) IP Ranges

Author:
Webservio Inc.

Created On: 17 Mar 2016 11:00 AM

To ensure all messages filtered by VIPRE Email Security (aka FuseMail) are delivered to your mail server, please add the following list of IPs to your firewall and/or mail server prior to redirecting your MX records.

Subnet IP
Subnet Mask
Net Mask
IP Range

208.70.128.0
255.255.248.0
/21
208.70.128.0 - 208.70.135.255

72.35.12.0
255.255.255.0
/24
72.35.12.0 - 72.35.12.255

72.35.23.0
255.255.255.0
/24
72.35.23.0 - 72.35.23.255

*IMPORTANT NOTE: Any customer using Office 365 or any other platform that will only accept CIDR format ranges of /24, we have broken down the list as follows:

Subnet IP CIDR Ranges

208.70.128.0/24
208.70.129.0/24
208.70.130.0/24
208.70.131.0/24

208.70.132.0/24
208.70.133.0/24
208.70.134.0/24
208.70.135.0/24
