To upload a backup file to the backup repository within the control panel:

- » Go to Domains > domain name > Backup Manager.
- » Click Upload Files to Server Repository.
- » Click Browse and select the required backup file.
- » Click OK.

The backup file will be uploaded to the backup repository.

To download backup file from the backup repository:

- » Go to Domains > domain name > Backup Manager.
- » Click the icon corresponding to the backup file you wish to download.
- » Select the location where you want to save the backup file and click Save.

The backup file will be downloaded from the backup repository.

To remove backup file from the backup repository:

- » Go to Domains > domain name > Backup Manager.
- » Select a check box corresponding to the backup file you want to remove.
- » Click Remove.
- » Confirm removal and click OK.
