Maintenance scheduled for 4/21/17

Edgewave ePrism - Data center maintenance On the evening of April 21st Edgewave will be replacing hardware in one of our data centers which could result in email delivery delays. During portions of the maintenance period the ePrism web interface will not be accessible for some users. The maintenance period will begin at 12 AM EST and last up to 4 hours.

If you have any questions about the maintenance please contact us by email, phone, or by creating a ticket at <https://support.webservio.net>.
